EIGHT PERSONS SUFFER INJURY AS CARS CRASH

LARGE NUMBER JUNIOR COLLEGE STUDENTS LEAVE

Head-On Collision On Bay-shore Highway Results In Trip To Hospital

Eight persons were injured, Sunday last about noon, when two machines crashed head-on, on the Bayshore highway near San Mateo.

The automobiles were driven by Mrs. Anna Garrish of San Francisco and Roy O. Bussell of Eugene, Ore. The injured were sent to hospitals.

Those suffering serious injuries were Frank Oram, 31, San Francisco, throat cut from ear to ear, one ear nearly severed. Mrs. Garrish, 55, compound fractures of both legs and left arm; Roy O. Bussell, 32, cuts and bruises; August Fulton, 60, Phelporg, Pa., mangled arm; Mrs. Aileen E. Fulton, 59, his wife, fractured collarbone; Mrs. Elizabeth Whitefoot, 45, Detroit, Mich., fractured pelvis; Edward Whitefoot, 58, her husband, fractured pelvis; Miss Lucy Schmidt, 37, New York, broken nose, loss of several teeth, deep cut in chin.

Bussell was jailed on charges of driving while drunk and causing personal injuries, reckless driving and driving without an operator's license. His bail was set at \$500 cash or \$1000 bond, and his trial was scheduled for today, June 17, before Judge Hugh F. Mullins Jr. in San Mateo.

More Than One Hundred And Fifty Are Awarded Diplomas

With final examinations over, diplomas awarded at the commencement exercises and entrance examinations given to many of the students who will enroll as freshmen next semester, San Mateo Junior College closed its spring semester and students and faculty members scattered for the summer.

In the beautiful Woodland Theater in Hillsborough, 151 students received diplomas at the sixteenth commencement. Dr. Tully C. Knoles, president of the College of the Pacific in Stockton, delivered the address, telling the graduates they must defend freedom of thought and education, work to enrich life about them, build homes and ever continue education for themselves.

Seventeen students were awarded life membership in the California Junior College Honor Society for high scholarship throughout their two years in college, while three more graduated with Junior College honors.

Scholarships were presented to Miss Patricia Quigley and to William Luttgens, while prizes went to Francis Guido, Kae Gifford and Miguel Luna, who were judged winners in research work in San Mateo County history.

GYM LEADER TO BE AT HI SCHOOL

Night Sessions For Adults Features Summer Program At Jefferson Union

With the assignment of a recreation leader by the Daly City Recreation Project, evening recreation is to be made a feature of the vacation program at the Jefferson Union High School gymnasium.

From 7:30 to 9:30 o'clock on Tuesday, Wednesday, Thursday and Friday a competent recreation leader will aid in the supervision of basketball, volley ball and badminton for adults.

A towel and shower fee of 10 cents is the only charge, which sum is to defray expenses of laundry and maintenance at cost. These sessions are open to all adults who are residents of the Jefferson High School District.

WOMAN SUFFERS SERIOUS HURTS IN AUTO CRASH

Mr. James H. Clifton and son Jack of 147 Winchester street were the first to render aid to Mr. and Mrs. Jack Armstrong, 457 Twenty-second street, San Francisco, who were injured in an automobile accident, Thursday (yesterday) early in the afternoon.

Mr. Clifton said the car turned over three times, crashing into the car of Mr. and Mrs. W. Huntley of 4211 Detroit street, Oakland. The accident occurred on the Coast highway about a half mile below Mussel Rock. The Huntley car was parked and the occupants had shortly before remarked about the peace and beauty of the surroundings.

The Armstrongs were the only persons injured in the impact. Mrs. Armstrong is now lying in a serious condition in the Junipero Serra Hospital and her husband, although hurled through the top of the car, sustained only minor injuries.

At present writing the cause of the accident is unknown. Mr. Clifton believes it may have been caused from a flat tire.

Distinguished Guest to Arrive

From San Pedro, Monday of this week, the Battleship Pennsylvania was announced as a Fourth of July visitor to San Francisco. Other assignments were made for other battleships to visit various Pacific coast ports for the holiday.

HEADS DOCTORS CONVENTION MEETING IN SAN FRANCISCO

Dr. Alvin Abell, president of the American Medical Association, is pictured with his wife as they recently arrived in San Francisco where 7000 doctors from all parts of the nation held their annual convention. Dr. Abell succeeded Dr. J. H. J. Upham as president. The new leader made a spirited attack on "socialized medicine," which he termed regimentation and control of all medical activities by political bureaucracies. Continuing his attack on government control of medicine, Dr. Abell declared: "The health of a nation neither should be made the football of politics nor consigned to the fallacious judgment of those who, regardless of sincerity of purpose, are untrained in the intricacies of its care."

SPLINTER STABS THREE PERSONS DRIVER IN LEG HURT IN CRASH

When the car he was driving slid off the road near King Mountain, Sunday evening of this week, a timber from a guard rail rammed into the car and entered the leg of the driver.

Three persons were riding in the front seat, but none suffered serious injuries. Arthur J. Flach of San Francisco, the driver, had his ankle stabbed by a large splinter from the guard rail and another occupant, Mrs. Murill Lewis, was badly bruised.

No great damage was done to the machine, as it was promptly brought to a stop.

LARGER AIR FORCE

Legislation, which permits the army to use 21,500 enlisted men in the air corps instead of the present maximum of 18,400, was signed by President Roosevelt in Washington, Monday of this week.

Mr. and Mrs. N. P. Petersen, San Francisco, each suffered a number of broken ribs when their machine and one driven by Carl A. Rollandi, San Francisco, sideswiped on a turn near the Mountain House on the Sky-line boulevard.

Rollandi was only slightly injured. The Petersens refused medical aid in San Mateo County and were taken to San Francisco by passing motorists. The state highway patrol ordered their locked car towed to a San Mateo garage.

A GOOD DAY'S WORK IN ANY MAN'S LAND

Near Quincy, Wash., recently, 59 rattlesnakes were killed in one day by O. F. Gibson and his two sons. The three warriors had armed themselves with a "snake gun"—a iron pipe with a wire running through it and a hook on the end of the wire.

Former U. C. President Leaps To Death

Dr. William Wallace Campbell, 76, former president of the University of California (1923-30) and recognized as one of the world's greatest astronomers, who recently leaped to his death in San Francisco. Failing health and fear that he was losing his reason were believed to have been the causes of the death leap from his apartment window. Photo shows Dr. Campbell while engaged in research work at famed Lick Observatory on Mt. Hamilton overlooking the Santa Clara Valley in California.

DALY CITY MEN FATHER OF TWO BOUND OVER TO KILLS SELF AS SUPERIOR COURT FAMILY WAITS

Plea Of Not Guilty In Justice Court Will Result In Trial At Redwood City

Two Daly City men, George Kirchhubel and Louis Linhares, were arraigned for preliminary hearing in the court of Judge Wade H. Clay, Thursday afternoon of this week, on a charge of operating a bookmaking establishment.

Two A. J. Kane Detective agency operatives, Roy Manning and William Barrett, testified they had placed a bet on a certain horse running at Suffolk Downs in the fourth race on May 7.

They described how the progress of races at various tracks had been followed by announcement through a loud speaker located in the room where the bets were placed. Each said he had bet \$1 and had received \$2.20 as return after the horse on which the bet was placed had won.

The witnesses described the manner of operation in betting and stated they had seen both defendants receive money for bets on horse races on that day.

Chief of Police Hilton testified that shortly after 1 o'clock in the afternoon of May 7, he, in company with three other police officers, had entered the premises where the alleged bookmaking was being conducted, 6296 Mission street, Daly City, and placed the defendants under arrest.

Charged with felony gambling and alleged to have operated a bookmaking establishment in Daly City, the two men were arrested, Saturday afternoon, May 7, by Daly City Police and operatives from the A. J. Kane Detective agency.

Police Chief Barney Hilton said at that time that the operators of the place had defied warnings to close.

The raid, Chief Hilton said, was timed to interrupt last minute business on the Kentucky Derby.

After hearing the evidence and listening to a motion for dismissal by the attorney for the defense, Judge Clay held both defendants to answer to the Superior Court. Bail was fixed at \$250 cash or \$500 bond for Kirchhubel and \$100 cash or \$200 bond for Linhares.

Professor Ferguson Tells 'Em-And How!

The "enclosed letter" here referred to will be found in another column of this issue, titled "Faculty Head Answers Query."

Editor, Daly City Record: Dear Sir—Your readers may be interested in the enclosed letter which I have just mailed to the editor of the San Francisco Chronicle. It is self-explanatory.

In addition to the facts contained in this letter, I would like to state that at the regular meeting of the Board of Trustees on last Tuesday evening, the final payment on the Gymnasium and Swimming Pool was made to the contractors, Frank J. Reilly Company. This leaves only the bond issue of \$85,000 to be paid on a building which cost approximately \$210,000.

I want to express to you our appreciation of the splendid help which you gave to our Gymnasium and Swimming Pool project through the columns of the Daly City Record since the matter was first presented to the people of the Jefferson Union High School District.

From the fine attendance by the general public at every session the pool and gymnasium are open, I am sure that the project is meeting universal approval. We now have a social as well as an educational center at our high school which is of tremendous worth to our district.

JAMES FERGUSON.

June 15, 1938.

WHAT A BREAK FOR ONE SMALL BOY

The former "It" girl of the screen, Clara Bow and wife of Rex Bell, cowboy actor, became the mother of a six pound, eleven ounce son at the Santa Monica Hospital, Tuesday of this week.

BABY SLEEPS ON

An 81 day period of sleep continued without any perceptible change in the condition of two year old Mary Ellen Reardon of Chicago, Tuesday evening of this week. The baby's deep sleep followed an attack of measles.

Despondent Daly City Man Is Suicide Victim Because Of Ill Health

Said to have been despondent because of continued ill health, Christian John Eggers, aged 35, of 198 Acton street, killed himself in the basement of his home, Sunday evening last.

Excusing himself from the room where his wife, two small children and other relatives had gathered shortly before dinner that night, Eggers walked down into the basement and fired a blast from a shotgun through his brain.

Mrs. Eggers heard the shot shortly after 6 o'clock, found her husband's body, sprawled and inert on the garage floor in the basement, and notified police. The body was removed to the Lasswell funeral home.

Eggers was an employee of the telephone company, with which he had been connected for the past fifteen years. Before coming to Daly City two years ago, he resided in San Francisco.

Authorities said that he had attempted suicide once before, but that the revolver he was planning to use had been taken away from him.

The surviving relatives are the widow Hildur and two minor children, Neal and Mae Eggers; his mother, Mrs. H. Heintz; two sisters, Pearl Wedde and Mae Adamina, and two brothers, William and Theodore Eggers.

Funeral services were conducted from the mortuary chapel of W. C. Lasswell & Co., Wednesday morning of this week, followed by interment at Cypress Lawn Cemetery.

HURDLE JUMPERS STEAL THE SHOW AT BADEN TRACK

Intense Competition In All Classes With Top Honors Strongly Contested For

Big crowds, fast greyhounds and the most popular dog racing plant in the West combined to keep the "Sport of Queens" to the fore again at Baden Kennel Club this week.

Intense competition has developed for top honors in all classes. Vice-versa, winner of the Inaugural Futurity, ran unplaced in the eight-dog match race last Saturday, and the winner was Legal Gamble, owned by Ollie Ostendorf. My Foxy, current champion at the five-sixteenths mile distance, was also unplaced in the same race.

The shuffle leaves the race wide-open, with many of these same dogs matched in the big feature race tomorrow (Saturday) night.

Sensation of the meeting has been the development of the hurdle dogs. Mammoth Flint, owned by Harry Duvaull, equalled the track record in his first start. Two young jumpers owned by R. B. Ferris, named Bluffing Jessie and Bluffing Bee, have been burning up the track. Sailor Joe, an old time favorite last meeting, has rounded into top form and has defeated some of the best.

The class of the hurdle dogs is an indication of the caliber of greyhounds assembled at the South San Francisco track. Some plants operating last fall and this spring had difficulty in finding enough good jumpers to make up their races. There is no such shortage at Baden.

War Waged To Rid Country Of Hoppers

Numberless grasshoppers were on the march in the deep southwest and Rocky Mountain region the past week, threatening ruin to farmers and stockmen.

Pitted against this menace were hundreds of men and machines, waging desperate war against the hordes. National guard detachments moved into the areas in northeastern New Mexico and the Texas Panhandle, while Colorado, Oklahoma, Montana and Wyoming farmers and government agencies mobilized their resources against the pest.

ROCKAWAY BEACH PEDRO VALLEY

By C. H. T.

A high light of the week was the social meeting of local P. T. A. members at the "Clipper Ship," home of Mrs. George Lewis, Shelter Cove, Saturday afternoon. The ladies discussed informally, their plans for the advancement and education of their children, and enjoyed a delightful repast as they "visited." Mrs. Peter Haugaard of the Cove acted as Mrs. Lewis' aide for the affair, expressing much interest in the practical discussion, and admiration for the high social type of P. T. A. members.

Mr. Eustace, projection man at El Capitan Theater, San Francisco, who recently purchased three of the Beeler lots, Grande avenue, Pedro Valley, is clearing his property, with the intention of building his summer home as soon as possible.

Captain "Sandy" Smith, of Alaska, was a visitor over the weekend at the home of Mrs. Becky Johnson and her niece, Miss Ruth Macdowell. The captain is down here forming a company to operate a million-dollar gold mine near the famous Juneau-Alaska mine, that has made fortunes for a number of investors. An interview in Scribner's Magazine some time ago, stated that this dour Scot had "changed the map of Alaska" with his many explorations and discoveries. An excellent account of Captain Sandy Smith's northern adventures is related in Barrett Willoughby's book, "Gentlemen Unafraid," which makes good reading for warm weather, with its tales of icy wastes and frozen streams.

Mr. Barnes is working hard to get his place in comfortable order for his family's summer outing. There appear, however, to be so many springs in the hills that every time one sits a spade in the ground, water bursts forth. And there's a deep well on the Barnes property that seems to defy plugging up, which, probably, will be overcome in time.

Salmon are reported running strong off-coast, and Jim Stuart and Gladys are catching plenty of fish, for the first time in many past weeks of rough seas and weather.

The Forrest Cubbons have repainted their pretty cabin, including the new porch addition.

Hermie Bryant and Mrs. Bryant have just returned from a "second honeymoon" vacation trip which took them down south to Los Angeles and beyond. Mr. Bryant attended to some important business, while Mrs. Bryant did research work at the library, enjoying the delight of looking over its rare books and manuscripts, which are reputed among the best in the United States, representing immense literary and financial values.

This locality was shocked to know that the Shelley home, on Pedro cliffs, was burned to the ground Tuesday night. Much sympathy is expressed for Mr. and Mrs. Shelley, who have had considerable ill-luck in the past three years, including a previous fire that partially destroyed their house over a year ago. This fire was the second within a week in this locality, the first being the McCart cabin, burned last Wednesday a week.

The wild strawberry season appears to be about over, but we are due to have a second crop later on, if the weather shows sufficient sunshine and warmth.

Bluebirds are nesting around in the hills, adding greatly to the summer picture.

Miss Florence Troglia of Rockaway is taking increasing interest in her Dad's business, so the latter reports, and he declares "Florence won't let anything get by. She keeps me right up to the mark."

"Little Casino" is working these days, up in the Rockaway Canyon, on township projects.

"Mac," the huge dog that formerly belonged to Mrs. Jennie Bicknell of Rockaway, still continues to protest his removal to Pedro, and from time to time he lifts up his voice in heart-rending howls that do not make him

particularly popular in the neighborhood. Like Jinny Hee-haw, "Mac's" vocal cords need oiling.

Mrs. Augustus drove over to Pedro last Wednesday, and visited Mrs. Johnson. She handles her big, heavy car with real skill.

Mrs. George Olmo lost many pounds during her illness, and she has returned home looking as slim as a young girl.

Engraved "reminders" were sent out last week for a social evening at the Bob Scott place, Rockaway Beach on Saturday, June 11. The affair attracted local residents and weekenders, who enjoyed a delightful entertainment, which included dancing, cocktails, a "Dutch plate" luncheon and get-together meeting of friends and families. Bob and his daughter, June, were thoughtful host and hostess of the occasion.

FROM OUR CONGRESSMAN
JOHN J. McGRATH

Walsh-Healey Bill — The House Committee on Judiciary has approved by a vote of 12 to 7 the Walsh-Healey Bill denying government business to companies that violate the Labor Relations Act.

Radio Broadcasting — George C. Payne, a member of the Federal Communications Commission, has asked the House Committee on Rules to pave the way for House action on a resolution for a special committee of the House to investigate monopoly in radio broadcasting. He charged that the radio broadcasting companies, through lobbyists, have tried to influence the FCC.

Aviation—The President's request for \$500,000 to start construction of a \$3,000,000 dirigible, to be used in training purposes, has been turned down by the House Appropriations Subcommittee in drafting the final deficiency bill. A total of \$26,000,000 had been asked by President Roosevelt to launch the recently authorized naval expansion program. The dirigible was included in this amount.

Investigations—While the committee investigating TVA is contemplating extensive hearings in Tennessee in July, the Senate committee investigating lobbying activities is waiting for more funds to continue its investigation. A preliminary report covering eleven months stated that due to "rapidly changing conditions," it recommended no legislation.

Judiciary — Senator O'Mahoney's resolution authorizing a study of monopolistic practices has been revised to remove threat of executive control, by the Senate Judiciary Committee considering it. An amendment to remove authority given the President to allocate \$500,000 proposed for study by executive departments, and substitute a study by a committee jointly representing the Senate, House, Justice and Commerce Department, SEC and FTC, was approved by the committee.

Railroads — Chairman Splawn, of the I. C. C., believes that financial troubles of the railroads will be solved by increased business rather than by legislation. A House subcommittee on Judiciary is considering a bill to speed up railway reorganization procedure.

Soil Fertility—A large group of people feel that the President is right in advising Congress that it should give attention to a study of the phosphate resources of this country. They believe that it is important that phosphate deposits be developed and conserved for the benefit of American agriculture. Fertilizers are becoming more and more important for replenishing exhausted farm lands and the country will some day be dependent on phosphates and other contributing elements to promote plant growth. Opponents of such a program of conservation, state that the available

Surgery Professor Wins Merit Award At A. M. A. Conclave

Dr. Rudolph Matas

Dr. Rudolph Matas, professor of surgery at Tulane University, New Orleans, La., who was recently chosen as first recipient of the distinguished medal for "meritorious service in the science and art of medicine." The award, created by the American Medical Association last year, was voted at the eighty-ninth annual convention in San Francisco. Regeneration of the healing profession under paternalistic governmental auspices was bitterly attacked and by some upheld during the meeting.

supply is abundant and conservation is far from necessary now, as the United States has great supplies and the amount is enough to last centuries.

Lake Developments—A treaty for development of the Great Lakes-St. Lawrence River basin has been proposed by Secretary Hull to Canada. Included would be electric power projects and a waterway to the sea. The proposal has met with different reactions on both sides of the border.

Wallace To Increase Use Of Farm Surpluses—Secretary Henry A. Wallace announced that in view of the existing surpluses of many farm commodities he has requested the executive committee of the Federal Surplus Commodities Corporation to co-operate with the state and local relief organizations and similar agencies in determining the extent of unfilled need for food and clothing among people on relief. Twin disasters occurring within the last few months have caused the people of the United States to adopt once more an emergency action program under the leadership of President Roosevelt. One disaster, due to man's failure to regulate his own affairs wisely, is the shutdown or part time operation of factories. The other disaster, due in part to the bounty of nature, is the fall in farm prices and farm income under the weight of huge surpluses.

Home Loans—Home financing by savings and loan associations in the United States during April totaled \$62,621,000 and set a six month record. April lending, which was twelve per cent above March, was the largest for any month since last October.

New Steel Cargo Ships — The United States Maritime Commission awarded a contract for the construction of four standard, steam propelled, steel cargo vessels of the C-2 design for operation in foreign trade. The vessels will cost \$2,080,000 each or \$8,320,000 for the four. They will be 435 feet long with a displacement of 13,900 tons and a speed of 15½ knots, which will make them over 50 per cent faster than the majority of the cargo ships in the merchant marine at the present time. All of the vessels must be completed within 600 days.

New Stamp—Postmaster James A. Farley announced that he had authorized the issuance of a special postage stamp in the three-cent denomination in commemoration of the one hundred fiftieth anniversary of the establishment of civil government in the Northwest Territory un-

FACULTY HEAD ANSWERS QUERY

Editor The Chronicle:

In today's issue of The Chronicle Mary E. Martin, of Daly City asks the question: "Who paid for the Swimming Pool at the Jefferson Union High School?" I am glad to be able to answer that question.

First, a bond issue for \$85,000, for the construction of a gymnasium and swimming pool was voted by the people of the Jefferson Union High School District by a majority of four to one. In addition to this approximately \$55,000, was paid from current funds of the school. Secondly, the Federal Government through the Public Works Administration made a grant of \$69,545, towards the cost of the project.

To summarize: The total cost of the gymnasium and swimming pool was approximately \$210,000, of which the local district paid \$140,000, and the PWA \$69,545.

Incidentally, let me, in behalf of our Board of Trustees, most cordially invite you and your associates to come swimming in our pool as our guests, Mr. Editor. I want the Chronicle to know that here in the Jefferson Union High School we have one of the finest gymnasiums and swimming pools to be found anywhere in California, or, for that matter, anywhere else. It is an indoor pool, lined with tile throughout, and has an underwater lighting system which makes it admired by everyone who sees it. The water is heated to a proper temperature, and is in constant circulation through large filters of the latest design.

Last Sunday week Governor Merriam dedicated the building in the presence of a large crowd of people. Your photographers were here and made some good pictures, but your reporters were off fishing.

Won't you please tell your readers that they don't have to go to the Santa Cruz High School to learn to swim—that they have only to come to the Jefferson Union High School? They can get here by street car from any part of San Francisco.

Swimming is now a regular part of our school program. Our slogan is "Every boy and girl at home in the water." We want to make it safe for the children, and adults, too, to go to the beaches for their vacation.

Won't The Chronicle help put this over for San Francisco as well as for the Jefferson Union High School District? Our swimming pool is right at your door.

Incidentally, I'll make a wager that if you come out any evening (except Monday) and see our pool in use you will go back to your desk and write an editorial with a heading something like this: "No More High School Drownings."

JAMES FERGUSON,
Principal Jefferson
Union High School.
Daly City, June 15, 1938.

der the Ordinance of 1787. This stamp will be placed on first day sale on July 15, 1938, in Ohio. The stamp will be purple in color and will be 0.75 inches by 0.87 inches in size. The central design will be a reproduction of a statue being erected at Marietta, which embodies a symbolic group representing a nation moving westward, designed by Gutzon Borglum, sculptor.

Volcanologist Predicts Mt. Lassen Eruption

Dr. Thomas A. Jaggar

Dr. Thomas A. Jaggar, acclaimed by scientists as the world's No. 1 volcanologist, who on his recent arrival in San Francisco told reporters the world's volcanoes, including California's famed Mount Lassen and Hawaii's Kilauea, are on the verge of unusual activity. "It is not unlikely that Mount Lassen will, in the next few years, experience another major outburst," Dr. Jaggar said the most prolonged period of volcanic activity which Hawaii has experienced within a century may start within a few years and carry on for three decades. Protective dykes around the city of Hilo, in the Hawaiian group, the scientist explained, is possibly the city's salvation against Kilauea's lava flow.

"If I don't live up to my label, 'HOT,' it is no fault of mine. Yet there are folk who try to twist my neck off when I'm not so hot. If I was connected with a water heater that ran itself without depending upon someone to start it and stop it, I would be faithfully serving hot water 24 hours a day." signed H. FAUCET

With summer right at hand every faucet in your home that is labeled hot, should be instantly able to deliver hot water when you need it. Quick shower and tub baths will freshen up your body, and spirits. Stockings and dainties doused in warm sudsy water and thoroughly rinsed are quickly made sweet and clean. In the kitchen and in the laundry, hot water on tap is a most welcome hot weather helper. Make sure your home has this kind of service an Automatic Gas Water Heater can best provide. As little as ten cents a day will buy and install an Automatic Gas Water Heater in your home.

BAYSHORE NEWS

Irene Mardecich

The Bayshore Improvement and Social Club has a feather in its cap. After a great deal of investigating by a committee composed of Ernest Durbin, B. Jeppesen and A. Ford, with the Pacific Telephone and Telegraph Co., it was finally announced by the Telephone Company that a reduction would be made in mileage rates by them. The change will soon be affected and will run on an average of 50 cents per home. The movement to have the rates lowered has been in progress for some time and the fact that these results have been obtained speaks very well for the persistence of the Bayshore Improvement Club and its chosen committee. Mr. J. Franzen is now in the chair and the club plans many other activities in the future for the betterment and improvement of our town.

Mrs. Joseph Walling won first prize at the Boy Scout whist given last Sunday evening in the Voters League Hall. A good crowd turned out to give the Bayshore Troop a hand.

A whist will be held in the near future by the Bayshore P. T. A. in the Voters League Hall. Please see the P. T. A. news for detail.

A local resident, who really has something to brag about, is Mr. Harry Wright. He obtained his citizenship recently and is now a full fledged citizen. Mr. Wright is one of Bayshore City's oldest residents and all will wish to congratulate him.

Mr. and Mrs. William Mardecich, Dolores and Robert Cox will spend their vacation in Yosemite Valley.

The pipe for WPA Bayshore water system has arrived and work will soon start on the work of installing it. This will add to the many improvements that Bayshore can boast of.

The Bayshore ball team again lost to the Market Street Railway 24th Street Car Barn last Sunday with a score of 5-11. The game was played at Glenn Park in San Francisco. After

the game all players proceeded to Mardecich's and the winners were treated by the losers with a keg of beer. Plans are to consolidate the two teams and join the league.

Lesson Sermon Of Christian Science

"Is the Universe, including Man, Evolved by Atomic Force?" will be the subject of the Lesson-Sermon Sunday, June 19, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The Golden Text will be: "Our help is in the name of the Lord, who made heaven and earth" (Ps. 124: 8). Other Bible citations will include: "Through faith we understand that the worlds were framed by the word of God, so that things which are seen were not made of things which do appear" (Hebr. 11: 3).

The Lesson-Sermon will also include the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Theorizing about man's development from mushrooms to monkeys and from monkeys into men amounts to nothing in the right direction and very much in the wrong. . . . Spirit can form no real link in this supposed chain of material being. But divine Science reveals the eternal chain of existence, as uninterrupted and wholly spiritual; yet this can be realized only as the false sense of being disappears" (p. 172).

GARBAGE TRUCK CATCHES FIRE

Fire equipment of both Daly City and Colma responded to an alarm, Monday morning of this week, when one of the local garbage trucks caught fire on San Pedro road near Holy Angels Church. The blaze, which probably originated from a can of hot ashes, was quickly extinguished without injury to the truck.

Careless drivers are a menace thinks Saxon Brown, London strong man, whose special stunt is to allow an automobile to be driven over his chest. Recently a driver let the wheels wobble and they went over Brown's neck. Results were not fatal, but the strong man suffered for several days with a painful "sore throat."

Forest Fires Sweep Olympic Peninsula In Washington

Battling the worst forest fire this season, thousands of firefighters recently sought to bring a raging conflagration under control in the vicinity of Quilcene, Wash., in the Olympic National Forest. Struggling for three days, 600 CCC workers and some 300 civilians fought feverishly to surround the blazing timber. A heavy fog subsequently lowered over the Olympic Peninsula which enabled the men to gain footing and bring the fire virtually under control. Vigilant watch was kept to prevent the blaze from breaking out in other places.

NEW STAMP OUT SOON

The forthcoming James Madison stamp will be pink and similar in size and design to other stamps in the presidential series, it was recently announced by postal officials.

It will be of four-cent denomination and will be sold for the first time July 1 in Washington, D. C.

Wife Takes Husband's Place

Appointment of Mrs. May A. Williams of Red Bluff was made, Monday of this week, by Governor Frank F. Merriam in Sacramento, to the office of supervisor in Tehama County to succeed her late husband, Harry E. Williams.

James Murray of Cairo has written to the mayor of Nottingham, Eng., asking that he find brides for himself and 50 other Englishmen in Egypt.

D. C. Fire Company Third Anniversary

Station Six, Daly City Fire Department, celebrated the third anniversary, Saturday evening of last week, at the fire house on Werner avenue.

A delicious ravioli chicken dinner and all the trimmings was served to the members of the City Council, Board of Fire Commissioners, fire chief, assistant chief and members of Station Six, all accompanied by their wives.

A huge three layer birthday cake, with three candles, occupied the center of the table. The candles were lit by Assistant Chiefs Fritz Hanson, Arthur Bodien and Bert Silicani. Chief Chesney had the honor of cutting the cake.

Following the dinner dancing was

enjoyed, a three piece orchestra furnishing the music.

Angelo Benediti of Millbrae was presented with a service certificate by Tony Gaggero.

Marriages Are Divorced

Divorce severed the marriage vows recently, when Howard Marriage of 1370 Clayton street, San Francisco, charged his wife with intemperance. He was granted the divorce from Mrs. Rose Marriage by Superior Judge Frank H. Dunne.

The wife is a resident of Minneapolis.

In Cardiff, Wales, was found a 100-year-old resident who had never heard of the World War nor ridden in an automobile.

Paul Frereton of Chicago testified in his divorce suit that his wife wanted him to take a crooked job that would have tripled his earnings.

BAYSHORE PTA

Mrs. Beatrice Jeppesen, Publicity Chairman

At the executive board meeting held, June 7, in the Riley Hall, the following chairmen were ratified:

Membership, Mrs. Berta Hughes; magazines, Mrs. Edna Mangels; art, Mrs. Leta Riley; publicity, Mrs. Beatrice Jeppesen; music, Mrs. Catherine Hiatt; emblems, Mrs. Grace Praul; character education, Mrs. Sadie Franzen; patriotic, Mrs. Jessie Ford; sunshine, Mrs. Maud Wentworth; milk, Mrs. Alice McKelvey; study circle, Mrs. Emma Percival; philanthropy, Mrs. Stella Filarski; founders day, Mrs. Ruth Toich; finance and budget, Mrs. Nina Hiatt; juvenile protection, Mrs. Louise Plumb; safety, Mr. F. Williams.

The group decided we should have some vacation activities, so a weenie roast was suggested and planned for July 23 with Mrs. Wentworth as chairman. This will be for all parents, teachers and children—so come out and let's have a real good time. Members wishing to participate, please get in touch with Mrs. Wentworth or Mrs. Jeppesen before that date. More definite plans will be published later.

The Round Robin cans will be called in soon and the losing side will decide on the time and place for the luncheon which will be served by them to the winners. The captains, Mrs. Hiatt and Mrs. Little, will announce the results and the losing side will then meet to discuss their plans.

Mrs. Wentworth, our sunshine chairman, is anxious to spread her sunshine, so any one hearing of members, or neighbors in ill health, needing to be cheered be sure to get word to her.

DRIVER STRIKES BADEN HIKER

A car driven by D. J. Mahoney of San Francisco struck John Barrogtra, a Colma rancher, on El Camino Real near Baden, Sunday night of this week. Barrogtra suffered a broken leg.

The injury was at first thought not to be serious, but Barrogtra died, Wednesday morning of this week, at the Community Hospital.

By buying at home you stimulate the progress of your community.

PURCHASE A HOME IN

BRISBANE

A GOOD PLACE TO LIVE!

BRISBANE GENERALITIES

Those who have noticed a few vest buttons strewn along Vistacion and did not know the reason are hereby informed that Mr. and Mrs. "Tiny" Burns are now the proud parents of a seven pound two and a half ounce baby boy. "Tiny" says he has it in for the hospital because they just haven't any consideration for the papa; they let him fret for an hour and a half before they told him. Oh well, Tiny, you can celebrate Fathers Day tomorrow, "anyhoo," Martin Irving is the name, Master Burns to most of us.

We hear tell from Mrs. Ethel Jonas that July 24 is the last day for registration for voting in August. Those who have been in the state one year and in the county three months are eligible to vote.

Mr. and Mrs. Frank Potter celebrated their tenth wedding anniversary with Mr. Potter at sea on the "Coolidge." A dinner party was given in their home by friends in San Francisco. Mrs. Potter and their young son represented the family.

Have you noticed "Rosie" lately? Some say its the love bug that bit her; others put it down to old spring fever.

The Brisbane A. C. won their game last Sunday, against the Hans Delicatessen by the score of 11-2. "Billy" Strassburger knocked in two home runs, one of them with the bases loaded. The boys have been doing very well considering the field they have to practice on. About one time in ten you can expect a good bounce from the ball; the other nine times the ball hits a hole or a mound and bounces in any direction.

Due to incomplete building facilities the Community Church postponed their Vacation Bible School for one week. It will start Monday morning at 9 o'clock, June 20.

The Non-Partisan League met last Wednesday and a number of reports were made.

The fire department has been burning lots around town and thus reducing possibilities of spreading fire. May we again warn against parking opposite other cars on our narrow streets. Unless the people of Brisbane are willing to co-operate, there will be an effort made to restrict parking to one side of the street only.

Spend the Fourth of July in Brisbane!

The queen contest is well under way with a number of our local girls well in the running. Ask for your votes from the local merchants and get behind your favorite.

Mr. Jonas and son Billy took a trip to Clear Lake, where they went "frogging." Those who were able to get a taste of the delicious legs were indeed fortunate.

Mrs. Irene Mardecich and Mrs. Ethel Jonas (school trustee), with Mr. Thomas Edward, architect, went to Half Moon Bay, Tuesday night, where they attended a meeting with high school trustees, who are planning a bond election and will also ask for federal money. The Brisbane and Bayshore School trustees gave helpful talks on what had been accomplished in Brisbane.

Didn't Take Much Stock In Politics

"I suppose, Uncle Jim, you remember a good deal about the politics of the early days?"

"Well, I never tuk much int'rest in pollytics, but I kin recollect when John C. Fremont was 'lected President."

"Fremont! Why, Fremont was never elected."

"He wun't? Well, now, thet gits me. I heard a leadin' speaker talk the night 'fore 'lection, an' he said if John C. Fremont wun't 'lected the country would fall to ruin an' everybody would have to shut up shop. Course I didn't take the papers; but, noticin' thet things went on 'bout same as before, I cal'lated John wun'."

—A. C. C. O. Press.

COAST RUN PROMISED FOR FIVE ATLANTIC LINERS

P. S. Franklin, chairman of the International Mercantile Marine, addressing a stockholders meeting recently, said it had been practically decided to abandon the Baltimore Mail Line and put its five transatlantic liners into the California-New York service. The five ships, to be operated by the Panama Pacific Line, will replace the three luxury liners recently taken off the coast run. The City of Baltimore, above, is one of the vessels which will give Los Angeles and San Francisco a weekly passenger service to the east coast.

BRISBANE P T A

Mrs. Jeannine Potter,
Publicity Chairman

ATTENTION! BRISBANE!

The regular meeting of the P. T. A. will be held, June 23 in Brisbane School auditorium at 2 p.m.

If you are interested in child welfare, we urge you to attend.

On Wednesday, June 15, the regular monthly meeting of the executive board was held. Plans were made for the coming meeting. Also a committee was appointed to select prizes for the coming whist party. Those appointed are as follows: Mrs. Jonas, Mrs. Anita Summers, Mrs. Tone King.

Don't forget to watch for the announcement of whist party to be held in September.

ALL MUST GET FIRE PERMIT FOR CAMPING TRIP

Campers and others making trips into national forest areas must have United States Forest Service permits before they will be allowed to build camp fires in those localities, it has been pointed out by the Touring Bureau of the California State Automobile Association. Camp fire permits are issued without charge. They may be obtained through various agencies, including all offices of the automobile association. They are issued for the calendar year and are good only in national forests, not in national or state parks or on private lands. Permits are required even for fires in stoves of auto trailers.

Each person receiving a permit is required to sign an agreement to abide by the following rules:

Not to build fires on national forest lands which are closed to camping or to building of fires.

Not to smoke on national forest lands which are closed to smoking, except in camps, at places of habitation, and in special posted smoking areas.

To carry a shovel and ax of specified dimensions for each automobile or pack train when camping in national forests.

To clear a space at least ten feet in diameter of all leaves, needles, and trash before starting a fire.

To leave no fire unattended, even for a short time.

To completely extinguish all fires with water, except fires in closed stoves on improved camp grounds, which must be left in such condition that the fire cannot escape.

To completely extinguish all burning matches, cigarettes, cigars and pipe heels before discarding of them. To maintain a clean and sanitary camp, burning or burying all refuse or disposing of it in receptacles provided.

To put out all small fires discovered or, if the fire is too large to handle alone, promptly to notify the nearest federal or state forest officer.

To see that all members of one's party know of and abide by these regulations.

By buying at home you stimulate the progress of your community.

MOTTO SHOULD BE LESS SPEED MORE CAUTION

When school is out it is time for extra caution, says a warning bulletin from the National Safety Council. Children should be taught how to cross the streets or road safely. Set them a good example by observing all traffic signals and regulations yourself.

Remember that the importance of developing safe pedestrian habits cannot be overestimated. But children sometimes forget and that leaves it up to you, Mr. Motorist, to exercise greater caution.

Wherever there are children, drive slowly. It may not be your fault if a child breaks from the curb in front of your car, but more control and less speed on your part can keep that child's mistake from being a fatal one.

Remember—it is more important to be without an accident than without blame.—San Mateo County Traffic Safety Commission.

PWA MAY FAVOR COUNTY PROJECT

That San Mateo County may submit a \$35,000 project for a new garage in Redwood City to replace the structure now leased by the county near lower Broadway, was considered, Monday of this week by Engineer Marshall.

Now that the new PWA funds are available the government would be asked for a grant of approximately \$15,800, the county putting up for its share \$19,200 out of the road department's gas tax fund. This project would substitute for the Anderson bridge job across Pescadero creek, for which PWA funds were approved after the completion of the span had been accomplished with county money.

Marshall had also received, from the PWA, assurance that a \$43,300 bridge building program could be revised for a federal grant of \$19,485.

EDITOR EXPECTS TO HAVE GREAT TIME ON SUNDAY

That Will Be Celebrated As Fathers Day—And All Dads Should Get A Break

In the late 'nineties a grief-stricken father sat with bowed head in the front room of his farmhouse, located among the rolling hills of the Big Bend, near Spokane, Washington. The March wind moaned and the six small children, five boys and one girl, seemed frightened and bewildered as they gathered close to him. They knew nothing about the finality of death and looked toward the door, evidently expecting their mother's return to them at any moment, but her material form had just been buried.

Finally, one lad rushed out in the snow to seek her in the woods, but the father roused himself and followed the child, raised him in his arms and brought him back, placing him in his crib. That was the beginning, for from then on the man became both mother and father to his six youngsters.

The little girl grew up and became Mrs. John Dodd. In 1910 she attended a church service. It was Sunday and Mothers Day. She heard the gentle words of the preacher, extolling the mothers of the world, but her thoughts were doing homage to the memory of her father, the only mother she had ever known. His form, too, now rested in the churchyard.

"Why only Mothers Day? she queried to herself. "Why not Fathers?" With these thoughts Fathers Day was born. Mrs. Dodd set aside the third Sunday in June in memory of the one, who had shared her childish games.

William Jackson Stuart was the simple, churchgoing man, who inspired, the day, which this year falls on next Sunday, June 19.

In Arkansas, his native state, he was called "Billy Button," because of the shiny brass buttons he wore on his homespun butternut brown jacket. At seventeen, he enlisted in the War between the States, and for twenty years after that he fought the stubborn soil of his home state to win a livelihood. Later it became

a coalfield, but by that time "Billy Button" had transported his family to the Big Bend.

Mrs. Dodd's dad lived by the golden rule. He never borrowed and taught his children the same. Objected if his daughter's petticoat ever showed or if the floors and walls were other than spotlessly clean.

The spirit of Fathers Day seemed to touch the hearts of people in all parts of the world, even to places as remote as Guatemala, Siam and Korea, and many sympathetic letters were received in behalf of honoring one day of the year for father.

The following poem makes plain, just what it means, to have or to have sometime experienced the real palship of a Dad.

A BOY AND HIS DAD

A boy and his dad on a fishing trip—
There is glorious fellowship!
Father and son and the open sky
And the white clouds lazily drifting
by,
And the laughing stream as it runs
along
With the clicking reel like a martial
song,
And the father teaching the young-
ster gay
How to land a fish in the sportsman's
way.

I fancy I hear them talking there
In an open boat, and the speech is
fair;
And the boy is learning the ways of
men
From the finest man in his youthful
ken.
Kings, to the youngster, cannot com-
pare
With the gentle father who's with
him there.
And the greatest mind of the human
race
Not for one minute could take his
place.

Which is happier, man or boy?
The soul of the father is steeped in
joy,
For he's finding out, to his heart's
delight,
That his son is fit for the future fight.
He is learning the glorious depths of
him,
And the thoughts he thinks and his
every whim,
And he shall discover, when night
comes on,
How close he has grown to his little
son.

A boy and his dad on a fishing trip—
Oh, I envy them, as I see them there
Under the sky in the open air,
For out of the old, old long-ago
Come the summer days that I used
to know,
When I learned life's truths from
my father's lips
As I shared the joy of his fishing
trips—
Builders of life's companionship!
—Edgar A. Guest.

Romance Grows Young

Retired capitalist and widower of Phoenix, Ariz., Myron H. Akin, 80, and Mrs. Sue W. Stanley, 79, a widow of Pasadena, procured a marriage license in the latter city, Tuesday of this week.
